

### **Annex 3: Agenda for the GRG parallel session**

---

General Remark from M. Schultz: The main focus of the GRG session will be to clarify the interaction between the modelers and the evaluators including technical, scientific, and administrative issues. Technical discussions on the CTM coupling and the data assimilation shall be continued, and the work plan March 2006-August 2007 shall be finalized. As the main part of this parallel session will be discussions, the schedule may be adapted where needed.

#### **7 Feb 13.30-17.00**

Progress report: Presentations by WP

13.30 WP1 Henk Eskes

13.50 WP2 Johannes Flemming

14.10 WP3 Antti Aurola

14.20 WP4 Jean Pierre Cammas

14.40 General discussion on achievements/delays and open issues  
(chair: Brasseur/ Schultz)

15.00 Coffee/tea break

15.30 Technical meeting on CTM coupling issues (chair: Flemming)  
and parallel session on availability of observational data sets (chair: Cammas)

17.00 Wrap up (chair: Brasseur/Schultz)

17.20 Adjourn

#### **8 February 9.00-12.30**

9.00 The use of observational data in GEMS (chair: Cammas/Textor?):  
what is available?  
how will comparisons be made and ranked?  
who has done/will do what?

10.00 Transfer of model results to evaluation activities: (chair: Flemming)  
data formats  
CTM output issues (storage capacities, user services, RAQ interface)

10.30 Coffee/tea break

11.00 "Transfer" session continued

12.30 Lunch break

#### **8 February 13.30-17.00**

13.30 Update on 18 month plan for March 2006-August 2007 (chair: Schultz)  
possibly small breakout groups on other specific issues

15.30 Coffee/tea break

16.00 Wrap up and definition of action items

17.00 Adjourn
