  - We can also use the Great Hall.

# Fire Bell Test: Monday 1600

- Please familiarise yourselves with exits from your bedrooms.
- in case of fire alarm:

# Meeting format

- 3 sessions plus synthesis (see programme)
  - please stay on time! Discussions are valuable!
  - session chairs shall summarize presentations as intro for discussion
  - discussion rapporteurs to provide notes for synthesis session
- Stick to the topic and try to provide an outlook
  - where is fire observation going?
  - where is fire modelling going?
  - where is smoke plume modelling going?
  - what are the main obstacles on the way forward?
- Research agenda
  - how do we continue from here? project? more workshops? ...

# Meeting format, cont.

- Raise your voice: this is *your* workshop!
- If you think some idea/issue should be picked up again later during the workshop, please feel free to get up and write it to one of the flipcharts for use at a later time!

# Workshop Publications

- Please have your talks ready on a memory stick – and provide them to one of the coordinators load onto the display computer before your session starts.
- The talks will be published as PDFs on the workshop web page.
  - **If your presentation contains sensitive material please provide an additional, publishable version during the workshop.**
- A Scientific Report of the workshop will be prepared and circulated for comments before submission to the ESF.
  - anticipated submission: 31 October
  - perhaps publish in eggs or EOS Transactions?
- Proceedings with extended abstracts (4-10 pages) by all participants and the scientific report will be published by ECMWF in the MACC Report Series.
  - **Please send your contribution by 15 October.**

**Thank you for coming!**

**Thanks to the ESF for funding!**
